 - (1) Prior to applying for a municipal development permit for a Retail Cannabis Store, the applicant is required to apply to the Alberta Gaming and Liquor Commission (AGLC) for a determination of eligibility to obtain a licence, and submit verification of the AGLC eligibility as part of the development application.
 - (2) Details of the proposed store location and a detailed listing and site plan of surrounding business and uses, both on adjacent (contiguous) parcels and those identified as sensitive sites (as outlined in sub-section 3 below) within 200 m (drawn on a high quality and clearly legible site plan with text descriptions).
2. The Development Authority may also require neighbourhood consultation to be conducted by the applicant. If a public consultation process is requested, the applicant must then provide to the Development Authority a description of when and what type of consultation was carried-out by the proponent and a general summary of the public input provided on the proposal (and a description of any objections or concerns raised).

Criteria and standards:

3. All Retail Cannabis Stores approved for a development permit must obtain a Retail Cannabis Store license from the AGLC and failure to secure an AGCL license will make the local development permit approval null and void. Proof of provincial license (for a Retail Cannabis Store) shall be required as a condition of a development permit approval.
4. A Retail Cannabis Store must be a separate use from any other business activities (i.e. non-Cannabis store) unless it is an activity or use expressly authorized by the AGLC.
5. A Retail Cannabis Store shall not be approved for a development permit if the premises is located within a 100 metre separation distance of:
 - (1) the boundary of a parcel of land on which a provincial health care facility is located, or
 - (2) the boundary of a parcel of land containing a school (public or private) facility, or
 - (3) the boundary of a parcel of land containing an approved child or daycare facility, or
 - (4) the boundary of a parcel of land that is designated as a school reserve or municipal and school reserve under the *Municipal Government Act*, or
 - (5) the boundary of a parcel of land containing a municipal park or playground facility, if the land is not designated as a school reserve or municipal and school reserve under the *Municipal Government Act*, or
 - (6) the boundary of the parcel of land of which contains a church, community centre, library or recreation facility where persons under 18 years of age may attend or congregate.
6. The specified separation distances applicable to Retail Cannabis Stores are not eligible to be varied or waived by the Development Authority, or on an appeal by the Subdivision and Development Appeal Board.
7. Maximum hours of operation, applicable to all approved Retail Cannabis Store operations, shall be limited between 11:00 a.m. and 10:00 p.m. which will be placed as a condition on a development permit approval. The hours of operation are not eligible to be varied or waived by the Development Authority, or on an appeal by the Subdivision and Development Appeal Board.
8. All signage, including the contents, must comply with the land use bylaw Schedule 7, Sign Regulations, and municipal development permit approval is required. The applicant/developer is also responsible to ensure any signage and its message contents comply with all federal and provincial requirements, including AGLC policies.
9. All parking requirements shall be provided in accordance with Schedule 5, Standards of Development, section 15 of the bylaw, and shall be deemed to be similar to other 'retail and service commercial' uses for determining the number and size of the required parking spaces.
10. The Development Authority may take into account the following factors when making a decision respecting a development application for a Retail Cannabis Store:
 - a. the extent and nature of opposition from community members or groups to establishment of a Retail Cannabis Store in a particular location; and
 - b. the suitability of the site in relation to adjacent land uses or other uses in proximity (100 m or less) to the proposed Retail Cannabis Store site.
11. If an approved Retail Cannabis Stores' existing AGLC license expires, the business must provide verification to the municipality that a new license has been obtained within 12-months of the expiry date, otherwise, the use will be deemed to have been discontinued and any development permit that may have been issued is no longer valid and said use may not be recommenced until a new application for a development permit has been made and a new development permit issued.

12. The Development Authority may, as a condition of approval on a development permit, specify a time limit on the development permit in regards to its validity, which may be considered a temporary use. At the time of expiry, the applicant/developer must reapply to the municipality for a development permit approval to continue the use.
13. A developer/operator of a Retail Cannabis Store is responsible for meeting and adhering to all provincial requirements for the physical security for the premises.
14. The design and construction of a Retail Cannabis Store must meet all provincial building code requirements.

Additional Land Use Bylaw amendments:

1. The Land Use Bylaw amendments propose to revise the wording and text of existing 'Medical Marihuana Production Facility' use and have them renamed 'Cannabis Production Facility' in order to use consistent terminology for all cannabis related uses in the Land Use Bylaw and to align with the new federal and provincial legislation that use the word 'cannabis' instead of 'marihuana'.
2. Amend 'Schedule 6, Specific Use Standards' section 8 for 'Medical Cannabis Production Facility' so that the text and standards also includes non-medical (recreational) Cannabis production so the resulting text will read: 'Cannabis Production Facility' for both medical and non-medical (recreational) production), to enable the facility standards to be inclusive and combined with both types of federally approved production.
3. Amend the Land Use Bylaw, Administration, section 13, Processing Non-complying Applications (Waiver / Variance Requests) by adding a policy clause that states: "The designated officer, Development Authority, or the Subdivision and Development Appeal Board on an appeal, do not have the authority to waive or vary an applicable standard of the bylaw, if a section or policy specifically states that the standard is not to be waived or varied."

Amending Bylaw - Section C

The described amendments are to add into the municipal Land Use Bylaw No. 930-17 policies, criteria and standards for new subdivision considerations.

Additions and amendments to Schedule 4, Subdivision Criteria, of the Land Use Bylaw. (Note: all text are new additions to the bylaw.)
