3. That section 1.4 Other Plans and Statutory Documents be amended by updating the Majorville Guidelines for Land and Resource Management (formerly the Majorville Heritage Landscape Management Plan draft) statement as follows:

#### Majorville Guidelines for Land and Resource Management

On the Vulcan County side of the Plan Area, adjacent to the Bow River (see Map 2), the Government of Alberta (GoA) has prepared the "Majorville Guidelines for Land and Resource Management" (MGLRM). This area consists primarily of relatively undisturbed native grasslands, much of which is occupied by grazing lease holders. Recognizing the existence of significant cultural features, including the Majorville Cairn and Medicine Wheel, and the unique biophysical resources associated with the planning area, the GoA commissioned the development of Guidelines that would assist in protecting the cultural and historic resources contained within the area.

Reference to the MGLRM can be found in the Implementation Plan (notably Strategy 3.6) section of the South Saskatchewan Regional Plan. The Guidelines, which were adopted in November 2015, were established following a robust, 10 year planning process, which included First Nations and stakeholder engagement. The MGLRM area, which is comprised primarily of Crown owned lands, is further divided into west and east "Heritage Landscape" areas. Land use activity is more stringently regulated within these areas, and prohibits development like solar farms or recreational use. Within these areas are two "no surface access" designations (limiting surface mineral extraction) that are fenced off, and which contains the site designating the Majorville Cairn and Medicine Wheel provincial historic resource. Archaeological studies indicate that this site has been used for the last 4,500 years, making it one of the oldest religious monuments in the world.

The MGLRM document should be referenced alongside relevant GoA departments for any land use applications within the MGLRM area. The development of IDP policies must be consistent with Majorville Guidelines for Land and Resource Management established for this important area.

4. That section 4.1 General Land Use Policies be amended to reflect the adoption of the Majorville Guidelines for Land and Resource Management:
  - 4.1.6 The Majorville Guidelines for Land and Resource Management (MGLRM) apply exclusively to lands that fall with the MGLRM boundary as illustrated in Map 2. If there is any discrepancy between the IDP policies and the policies in the MGLRM, the MGLRM prevails.
5. That section 4.2 Agriculture be amended by adding the following policy for clarification:

4.2.1 Agriculture will continue to be the predominant land use in the Plan Area. The impact on agricultural uses should be a consideration when determining suitability of non-agricultural land uses in the Plan Area.

6. That the following section be added on the Natural Environment to comply with s. 631(2)(a)(v) of the MGA:

#### 4.8 Natural Environment

##### INTENT

Both municipalities recognize the connection between the natural environment and quality of life and strive to protect, preserve and enhance natural systems and environmentally significant areas, while promoting appropriate development.

##### POLICIES

4.8.1 When making land use decisions, each municipality will:

- a) utilize and incorporate measures which minimize possible impacts on the Bow River and any other important water resource;
- b) determine appropriate land use patterns in the vicinity of significant water resources and other water features;
- c) establish appropriate setbacks to maintain water quality, flood water conveyance and storage, bank stability and habitat.

4.8.2 Lands that have been identified that may contain an environmentally significant site may be required to conduct an environmental impact assessment (EIA) and the proponent should contact Alberta Environment and Parks.

4.8.3 Lands that have been identified that may contain a historic resource may be required to conduct a historical resource impact assessment (HRIA) and the proponent should consult the Historical Resources Act and Alberta Culture and Tourism. Both municipalities should give consideration to the Majorville Guidelines for Land and Resource Management where appropriate.

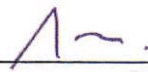

4.8.4 Both municipalities should consider the provincial Wetland Policy when making land use decisions with the goal of sustaining environment and economic benefits.

7. The policy 5.3.3 be amended by deleting the following: "... and remains in effect until: a) either Council rescinded the Plan by bylaw after giving six (6) months' notice to the other municipality; or b) mutual agreement of both municipalities to rescind the bylaw."

8. That the aforementioned amendments to the Vulcan County and County of Newell Intermunicipal Development Plan Bylaw No. 2015-008 and Bylaw No. 1829-15, shall make use of formatting that maintains the consistency of the portions of the bylaw being amended.
9. Bylaw No. 2018-031 shall come into effect upon third and final reading thereof.
10. Bylaw No. 2015-008 is hereby amended.
