- 1.2 All of the specific uses listed in the second column of Table 3.1 are defined in Part 9 (Definitions). The use specific standard in the fourth column of Table 3.1 identifies standards applicable to the use in addition to the general standards of development.
- 1.3 A “P” indicates that the use is classified as a permitted use within the respective land use district. A permitted use is allowed by right within the respective land use district only after review and approval by the Development Officer in accordance with Part 1, Section 29 (Permitted Uses). Permitted uses are subject to all applicable standards of the Land Use Bylaw.
- 1.4 A “D” indicates that the use is classified as a discretionary use within the respective land use district. A discretionary use is allowed only after review and approval by the Municipal Planning Commission, in accordance with Part 1, Section 30 (Discretionary Uses). Discretionary uses are subject to all applicable standards of the Land Use Bylaw.
- 1.5 A blank cell (one without a “P” or “D”) indicates that the use is not allowed (i.e., prohibited) within the respective land use district.
- 1.6 A use that is not specifically listed in the Use Type column of Table 3.1, but which may be similar in character and purpose to other uses listed in the land use district in which such use is proposed, may be classified by the Development Authority as either similar to a permitted use or similar to a discretionary use in accordance with Part 1, Section 31 (Similar Use).
- 1.7 The provisions of Part 4 (Dimensional Standards and Setbacks) apply to all uses in this section.
- 1.8 The provisions of Part 6 (General Standards of Development) apply to the uses in this section.
- 1.9 Refer to Part 5 for development not requiring a development permit.

SECTION 2 DESIGN, FINISH AND ORIENTATION OF BUILDINGS, STRUCTURES AND SIGNS

- 2.1 The design, character and appearance of buildings, structures and signs shall be consistent with the intent of the land use district in which the building, structure or sign is located and compatible with other buildings in the vicinity.
- 2.2 The Development Authority may regulate the exterior finish of buildings, structures or signs to improve the quality of any proposed development within any land use district and maintain compatibility with surrounding or adjacent development and existing buildings on the same lot.
- 2.3 The maximum allowable height above the average finished surface level of the surrounding ground of the exposed portion of a concrete or block foundation may be limited by the Development Authority.
- 2.4 Subject to the requirements of the Safety Codes, the Development Authority may require that buildings be physically accessible to disabled persons.
- 2.5 If a building is to be located on a lot with more than one street frontage or on a lot with potential for further subdivision, the Development Authority may regulate the orientation and location of the building as a condition of development approval.

SECTION 3 VARIED BUILDING SETBACKS – RESIDENTIAL DISTRICTS

- 3.1 The Municipal Planning Commission may waive the building setback requirement in a well-established residential area if, in their opinion, the setback blends in with the prevailing yard pattern.
- 3.2 The Municipal Planning Commission may require varied building setbacks in new residential areas if, in their opinion, the variation in setbacks will enhance the development of that area.
- 3.3 The Municipal Planning Commission may require increased building setbacks if, in their opinion, such setbacks would be necessary.

SECTION 4 CORNER VISIBILITY

Street Corner Visibility

- 4.1 On a corner lot, nothing shall be erected, placed, planted or allowed to grow in a manner which may restrict traffic visibility at street intersections, between 0.9 m (3 ft) and 3.0 m (10 ft) above the centre line grades of the intersecting streets in the area bounded by the property lines of such corner lots and a line joining points along the said property line 7.62 m (25 ft) from the point of intersection (see Figures 6.1 and 6.2 where Dimension A = 7.62 m; 25 ft).

Figure 6.1

Figure 6.2

Rear Lane Visibility

- 4.2 The Development Authority may impose conditions on a development to ensure that adequate visibility and safety of both pedestrians and vehicles is maintained for vehicles entering and exiting rear lanes.
- 4.3 The Development Authority may request that a minimum 1.5 m (5 ft) clear vision triangle be provided for lots backing onto the intersection of a rear lane and public roadway (see Figure 6.2 where Dimension B = 1.5 m; 5 ft).

SECTION 5 ACCESS AND DRIVEWAYS

- 5.1 Location of the access to each development from a public roadway shall be shown on the site plan submitted with the application for a development permit and is subject to the approval of the Development Authority.

- 5.5 Only one driveway per lot should be permitted for single detached dwellings (all types).
- 5.6 Driveways shall be a minimum of 3.0 m (10 ft) and a maximum of 7.62 m (25 ft) in width.
- 5.7 In residential districts where a subject property does not provide a side yard sufficient for a driveway, then one off-street parking pad may be permitted in the front yard to a maximum of 7.62 m (25 ft) in width.
- 5.8 Driveways shall be a minimum of 3.0 m (10 ft) from the entrance to a lane (see Figure 6.3 Dimension B), and 4.6 m (15 ft) from the intersection of two public roadways (see Figure 6.3 Dimension A).

- (a) engineered grading and drainage plans for the development and a legal survey demonstrating that engineered grades have been met;

(b) grading and other measures, as appropriate, to control surface drainage, prevent drainage problems with neighbouring lots, reduce or eliminate grade difference between adjacent lots, and minimize erosion or slope instability.

8.2 Roof and surface drainage shall be directed either to the public roadway fronting the property, or as approved by the Development Authority, to a rear or side property boundary or as approved in an engineered stormwater management plan.

8.3 The construction of a retaining wall, including submittal of an engineered design may be required whenever, in the opinion of the Development Authority, significant differences in grade exist or will exist between the lot being developed and any adjacent lot or roadway. Where a retaining wall is required, the applicant shall submit to the Development Officer plans identifying the design and specifications of development for review and approval by the accredited safety codes officer.

SECTION 9 SITE LIGHTING

- 12.5 Off-street parking lots may be required to be landscaped and screened to the satisfaction of the Development Authority.
- 12.6 Where off-street parking is adjacent to a residential use, the Development Authority may require a landscaped buffer between the property line and the adjacent use.

- 13.2 A mitigation plan may be required as a condition of approval as well as any other measures deemed necessary by the Development Authority to mitigate impacts pursuant to Part 6, subsection 13.1.

The notifications should be sent 25 days prior to the public meeting.
- 3.3 The proponent shall be prepared to hold an open house regarding their development proposal and should proactively explain all aspects of the siting, technology and appearance of the proposed structure.

ABANDONED WELL INFORMATION

This applies to developments that require a new permit from the municipality for:

- new buildings larger than 500 ft² (47 m²), or
- additions to buildings that will result in the building being this size or larger.

If your development proposal fits the criteria above, you are **required** to do the following:

1. Obtain map and well information

Please go to the AER's Abandoned Well Viewer (viewer) on the AER website at www.aer.ca. The viewer will provide a map identifying all recorded abandoned well surface locations in the selected area and list any additional details that are available, including the licensee(s) of record and the latitude and longitude of each well's surface location.

If you do not have Internet access or have questions about the information provided by the viewer, you may contact:

- the AER Customer Contact Centre by telephone at: **1-855-297-8311 (toll-free)**, or
- by e-mail at: [Inquiries@aer.ca](mailto:Inquiries@ aer.ca), or
- the AER Information Services by mail at: **Suite 1000, 250 – 5 Street SW, Calgary, Alberta T2P 0R4.**

2. Submit the following as part of your development permit application

- the AER information, including a map of the search area from the viewer and a statement that there are no wells in the project area or a list and map identifying the location of abandoned wells within the search area (including the surface coordinates, as provided by the viewer or AER Information Services); and
- if an abandoned well is present, a detailed site plan must be provided that accurately illustrates the actual well location (i.e. latitude, longitude) on the subject parcel as identified in the field and the setback established in the AER Directive 079 (a minimum 5 m radius around the well) in relation to existing or proposed building sites.

If there is an abandoned well located in the area of the proposed surface development, the applicant is advised to contact the well licensee of record for any additional information that may be needed or to physically locate the well, and to discuss the proposed development and abandoned well issue in more detail.
